## Letters To The Editor

### THANK YOU GEORGE

Editor, Long Island News  
I am writing this letter hoping you will find space in your paper for this interesting story on community events.

A good friend and neighbor of mine, George Smith of 2 Camps Avenue, Seiden, felt there was a need for an official Little League organization in our area. His goal purpose was a league for those families who could not afford the current registration fee of most leagues and secondly to benefit the children that are playing.

The Little League of Williamsport Penn. has granted a charter to this organization known as the Seiden-Emmarragh Little League.

In a few short months he has received the use of land owned by Grace Presbyterian Church. In this wooded area he has rented equipment and cleared away trees and leveled land and subsequently he has put up a backstop and built a ball field. For months he has traveled up and down Jericho Turnpike seeking sponsors and donations.

He has also started a baseball clinic for about 20 youngsters. Hopefully next year will show an expansion of teams and possibly an additional field.

Where he got all his time and energy to do all this we will never know. That's just his nature to always try and help people.
